(e.g Spark, Spark NLP, Spacy)
Apache Hadoop 
Docker 

Languages

Italian 
English 

SOME PROJECTS

DidYouPlay? (2021)

School project developed for *Java for Mobile* class. Android application that shows details of video games and tracks their status.

ElysiumDB (2020)

School project developed for Database and Knowledge class. Includes: description, requirements analysis, development with MySQL and MongoDB.

Albion Loot Splitter (2019)

Personal project: utility web application developed for users of the video game Albion Online.

ABOUT ME

Motivated college student with a strong passion for technology and computing. I've followed the computer science path since the high school, finding an attraction for Artificial Intelligence and Machine Learning. Always looking for events and convention to remain updated on the newest technologies. Participant of various hackathons, I like healthy competition that stimulates me to do always better and learn as much as possible.

EDUCATION

📅 04/2022 - Now
📍 University of Rome La Sapienza

Master's Degree Computer Science

Computer graphics, animation and game design, human-computer interaction, design of web and mobile apps, social media analytics, text mining and machine learning, natural language processing, computer vision and biometric systems.

📅 09/2018 - 02/2022
📍 University of Rome Tor Vergata

Bachelor's Degree Computer Science

(Thesis) A framework for Natural Language Processing: performance analysis for the resolution of task of Text Classification and Named Entity Recognition in distributed environment

Logical and mathematical foundations, Algorithms and data structures, Software design and development, Artificial intelligence and ML, Web and Android programming, notions of cybersecurity and cryptography.

ACHIEVEMENTS, HONOURS AND AWARDS

- 🏆 Member of the Sapienza Team for CyberChallenge.IT, Rome (2022)
- 🏆 Participant of Reply Code Challenge (2022)
- 🏆 Two time local winner of NASA SpaceApps Challenge, Rome (2020,2021)
- 🏆 Participant of TIPOHack by TIM, Rome (2018)
