

Manuel Di Lullo

DATA ENGINEER · CLOUD ARCHITECT

☎ +39 328 6514352 | ✉ manuel.dilullo99@gmail.com | 🏠 manuedilullo.github.io | 📱 manuedilullo | 🌐 manuel-di-lullo-83ba23145

Summary

Data & Cloud Infrastructure Architect with a strong engineering background in Cloud environments and AI/ML solution. Proven track record in designing, securing, and optimizing enterprise hybrid and multicloud architectures. Adept at leading cross-functional teams to bridge the gap between cloud governance, advanced data engineering (RAG, Cloudera), and strict compliance frameworks (GDPR, Zero Trust). Recognized for technical innovation through multiple hackathon wins and a results-driven approach to complex infrastructure scalability.

Skills

Hybrid & Multicloud	AWS, Azure, K8S, OpenShift, Hybrid Connectivity (VPN/Direct Connect)
IaC & DevOps	Terraform, Terragrunt, CloudFormation, AWS CDK, Azure DevOps, GitHub Actions, CI/CD Pipelines, Bash
Data & AI Engineering	Cloudera, Spark, Hadoop, Python, Pandas, SQL (PostgreSQL, MySQL), NoSQL (MongoDB), RAG
Security & Governance	IAM, Zero Trust Architecture, RBAC, Encryption, Cloud Compliance (GDPR, ISO), FinOps & Cost Optimization
Languages	Italian (Native), English (CAE Certified)

Work Experience

Terna SpA

Rome, Italy

CLOUD INFRASTRUCTURE SPECIALIST

02/2026 - Present

- Multicloud Governance - Design hybrid and multicloud architectures using serverless and containerized services (K8S, OpenShift)
- Data Engineering & AI – Architect integrations for data platforms, ETL and RAG pipelines for advanced data querying.
- Security & Compliance - Design of Zero Trust multicloud security, strong authentication, On-Behalf-Of (OBO) patterns, RBAC models.
- DevOps Automation - Engineer e2e CI/CD pipelines within Azure DevOps to automate infrastructure provisioning
- FinOps & Management - Cloud cost optimization, monitor resource provisioning, and manage vendors delivery

STORM Reply

Rome, Italy

CLOUD ENGINEER

09/2022 - 01/2026

- AWS Cloud Expertise – Proficient in AWS services, containers (Docker, K8S), SaaS, and CI/CD pipelines.
- Data Engineering & AI – Development of efficient and cost effective ETL Workflows with AWS Glue, Athena, SageMaker, and Bedrock.
- Networking & Security – Networking and high-availability architectures ensuring security via IAM, KMS encryption and strong auth.
- Programming & Automation – Skilled in Node.js, Python, Bash, AWS SDKs and IaC w/Terraform and Terragrunt.
- Business & Consulting Skills – Cloud strategy, cost optimization, stakeholder management.

Education

University of Rome La Sapienza

Rome, Italy

M.S. IN COMPUTER SCIENCE - 108/110

04/2022 - 01/2026

- **Thesis:** Agentic AI for AI Act and GDPR Compliance
- Specialized in Cloud Computing, Data & Network Security, Natural Language Processing (NLP), and Biometric Computer Vision.

University of Rome Tor Vergata

Rome, Italy

B.S. IN COMPUTER SCIENCE - 103/110

09/2018 - 02/2022

- **Thesis:** A framework for NLP: performance analysis for the resolution of task of Text Classification and NER in distributed environment
- Advanced coursework in Software Design, Distributed Systems, Cybersecurity, and Machine Learning.

Extracurricular Activity

Splunk - RomeHack BOTSv6 1st place

Rome, Italy

WINNER OF SPLUNK'S BOTS COMPETITION HELD AT ROMHACK

Sept 2022

CyberChallenge.it - Member of University of La Sapienza Team

Rome, Italy

MEMBER OF THE SAPIENZA CTFs TEAM FOR CYBERCHALLENGE.IT

Feb. 2022 - Jun. 2022

NASA - Winner of NASA SpaceApps Challenge

Rome, Italy

TWO TIMES LOCAL WINNER OF NASA SPACEAPPS CHALLENGE.

2020, 2021
